FLOOR POLISHING TOOLS

Marble - Granite - Limestone - Terrazzo - Agglomerates

DIAGRES

SPEEDY

TERMINATOR

Diamond tools for Traditional and Planetary floor polishers

/

Very high production in terms of quantity and quality

Ceramic Bond Diamond Abrasives

Abrasive diamond tools Internationally Patented, revolutionary when sanding. They consistently fastening the finish process by avoiding 2 or even 3 steps on every type of material.

Resin Bond Diamond Abrasives

These are the only tools in the market that gives perfect polish and incredible high gloss, increasing production on marble, granite, limestone and terrazzo.

**On request, we can develop the tools in new formats.*

After a new floor is installed:

- grout the floor tiles gaps
- grinding the floor with metal segments #50 and then with #120

Depending on the materials, follow the sequence on the chart:

ALL MARBLE LIMESTONE & TERRAZZO	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3
------------------------------------	-----------------	------------------	------------------

ONLY BLACK & DELICATE MARBLE	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4
---------------------------------	-----------------	------------------	------------------	------------------

Add the Pos.4 just for black and delicate marbles (as Portoro Marble, Belgium Black, Marquina, etc.)

ALL GRANITE	SPEEDY pos.0	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4	DIAGRES pos.LUX
----------------	-----------------	-----------------	------------------	------------------	------------------	--------------------

Then, final polishing with Powder and Felt / Single Disc machine

SWEDIAM - CATALOGO 2021

PLATO'

Marble - Limestone - Granite – Agglomerates

Diamond tools for Radial Arm machines

Very high production in terms of quantity and quality

SWEDIAM Radial Arm polishing system

After the slab has been calibrated with the proper metal segments, we proceed as follow:

MARBLE & LIMESTONE	SPEEDY pos.0	DIAGRES pos.2	DIAGRES pos.3
--------------------	--------------	---------------	---------------

BLACK MARBLE & LIMESTONE	SPEEDY pos.0	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4
--------------------------	--------------	---------------	---------------	---------------

For some delicate black marble or limestone add the Position 4 (#1800).

GRANITE	SPEEDY pos.0	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4	DIAGRES pos.LUX
---------	--------------	--------------	---------------	---------------	---------------	-----------------

Final polishing with the powder and felt on all materials - Use dedicated powder for each type of material.

SWEDIAM - CATALOGO 2021

FRANKFURT

Marble - Granite - Limestone - Terrazzo - Agglomerates

Diamond tools for Traditional and Planetary floor polishers

Very high production in terms of quantity and quality

Ceramic Bond Diamond Abrasives

Abrasive diamond tools Internationally Patented, revolutionary when sanding. They consistently fastening the finish process by avoiding 2 or even 3 steps on every type of material.

Resin Bond Diamond Abrasives

These are the only tools in the market that gives perfect polish and incredible high gloss, increasing production on marble, granite, limestone and terrazzo.

*On request, we can develop the tools in new formats.

Polishing tiles & slabs procedures:

Grinding the surface with the proper metal segments till grit #120
Depending on the materials, follow the sequence on the chart:

ALL MARBLE LIMESTONE & TERRAZZO	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3
------------------------------------	-----------------	------------------	------------------

ONLY BLACK & DELICATE MARBLE	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4
---------------------------------	-----------------	------------------	------------------	------------------

Add the Pos.4 just for black and delicate marbles (as Portoro Marble, Belgium Black, Marquina, etc.)
Then, final polishing with 5-EXTRA

Re-Polishing slabs procedures:

ALL MARBLE LIMESTONE & TERRAZZO	SPEEDY pos.0	DIAGRES pos.2	DIAGRES pos.3
------------------------------------	-----------------	------------------	------------------

ONLY BLACK & DELICATE MARBLE	SPEEDY pos.1	DIAGRES pos.2	DIAGRES pos.3	DIAGRES pos.4
---------------------------------	-----------------	------------------	------------------	------------------

Then, final polishing with 5-EXTRA

LABRADOR The best products for polishing Granite and Serpentine Marble	Z-24 High-performance polishing compound		OXALIC ACID Best product to provide the final gloss
GRANILUX Very high-performance liquid polishing powder, for all types of granite	MIG-1 The MIG-1 polishing powder can polishing any type of materials, even granite with an excellent result Especially for Terrazzo and Palladian		
	POTE' White polishing powder for all type of marble, especially suitable to polish white marble and similar		
	GO-LA Especially for Pink Portugal marble and other delicate marbles		
	LUX-5 EXTRA Best polishing result on all type of marbles, especially suitable to polish colored and black marbles		

GRES POLISHING

DIAGRES - *Diamonds Inclusion Powder*

Best polishing result especially on Gres and Terrazzo

110000310	DIAGRES	JAR	PACK	KG	1	GRES			
110000320	DIAGRES	DRUM	PACK	KG	10	GRES			

INSTRUCTION FOR USE

DIAGRES polishing powder is produced with special diamond inclusion, is especially suitable to polishing **Gres** and **Terrazzo** with glass agglomerates. This powder must be used with woolen felt on wet surfaces. Best finish can be obtained by using Swabs Corks instead of woolen felt and with an add of Pool Oxide 20% about. You will obtain the maximum shining by passing twice.

AVERAGE: 1Kg/30sqm

Product to be sold only for professional uses.

Product in powder for polishing marble

NOT TOXIC - NOT INFLAMMABLE - DO NOT SWALLOW

In contact with skin rinse with water

GRANITE POLISHING

K-2

for Automatic polishing machines - Special polishing powder for granite

110001310	K-2	JAR	KG	1	GRANITE				
110001315	K-2	DRUM	KG	10	GRANITE				
110001320	K-2	DRUM	KG	20	GRANITE				

INSTRUCTION FOR USE

After polishing the surface with the abrasives, take a small amount of **K2** polishing powder and start polishing the wet surface. Be careful that the powder not get dry during the polishing and stress for several minutes until the surface is uniformly polished. The **K2** polishing powder is suitable for use with machines that have a variable speed drive.

Product to be sold only for professional uses.

Product in powder for polishing granite

NOT TOXIC - NOT INFLAMMABLE - DO NOT SWALLOW

In contact with skin rinse with water

LABRADOR

The best products for polishing Granite and Serpentine Marble

110001410	LABRADOR	JAR	KG	1	GRANITE				
110001415	LABRADOR	DRUM	KG	10	GRANITE				
110001425	LABRADOR	DRUM	KG	20	GRANITE				

INSTRUCTION FOR USE

After polishing the surface with the last grit of abrasives (buff), take a small amount of **LABRADOR** polishing powder (an handful - with double-hand), wet the floor and the powder, and start polishing the wet surface with an **INOX Wool Felt**. Be careful that the powder not gets dry during the polishing by using just little amount of water (creamy) and stress for several minutes by producing a slight warmth

on the material until the surface is uniformly polished, then wash and dry the floor. The **LABRADOR** polishing powder is suitable for use with machines that have also a variable speed drive.

Best result with single-disc machine - speed about 150/300 rpm.

Product to be sold only for professional uses.

NOT TOXIC - NOT INFLAMMABLE - DO NOT SWALLOW

In contact with skin rinse with water

GRANILUX - Liquid Cream

Very high-performance liquid polishing powder, for all types of granite

110001510	GRANILUX	JAR	KG	1	GRANITE				

INSTRUCTION FOR USE

Apply with steel wool - Shake before use

After polishing the surface with the abrasives, be sure that the surface is perfectly dry then take a small amount of **GRANILUX** liquid polishing powder and start polishing on the dry surface. Best result is obtained by polishing about a square meter at time. Better use a delicate flame on the surface on the way to dry and get it lightly warm before to apply the **GRANILUX** liquid polishing powder. Be careful that the powder not get dry during the polishing and stress for several minutes the steel wool on the surface until it become lightly warm and it is uniformly polished. The **GRANILUX** liquid polishing powder must be apply with **Stainless Wool Felt** which is neutral on the colored granites, instead with dark or black granite must be apply with standard **Steel Wool Felt** which give a spectacular mirror polishing black surface. The **GRANILUX** liquid polishing powder is suitable for use with machines that have a variable speed drive.

Product to be sold only for professional uses.

Product in powder for polishing granite

NOT TOXIC - NOT INFLAMMABLE - DO NOT SWALLOW

In contact with skin rinse with water

MARBLE POLISHING

RENDO

Special high power polishing preparation for all marbles

110000610	RENDO	JAR	KG	1	MARBLE				
110000615	RENDO	DRUM	KG	10	MARBLE				
110000620	RENDO	DRUM	KG	20	MARBLE
